

Digital dentistry made easy with PLANMECA

Join Planmeca on stand E70 for a series of hands-on workshops
and start your digital dentistry journey today!

Within each 1 hour workshop you will...

- Learn about the digital connected future
- Understand materials & characterisation
- Scan, design and mill your own restoration
- Evaluate the ROI for CAD/CAM integration

CHRIS BARROW

THE CONNECTED DIGITAL PRACTICE

Start your journey into digital dentistry with renowned dental business consultant Chris Barrow. Chris will present a look into the future of the connected dental practice and will finish up the session with a short interactive discussion on case acceptance of same day dentistry within the high street practice.
